04/30/2021

**Are you a beach or mountain person? Explain your choice.**

Before I was a mountain person. I enjoyed the cool calming fresh air of the mountain together with the sound of chirping birds that calms me, the sound of the rivers flowing endlessly on the rocks. I was able to appreciate how it soothes my inner spirit. But today, I am a beach person. I enjoy swimming and snorkeling onto the beautiful sea. Exploring the mysterious formation of the corals and the hidden beauty beneath the deep blue sea enlightens me. You can spot various kinds of fishes and some of them are either shy or curious about you. It amazes me so much on how our Creator was able to make these wonderful and beautiful places. We should take care of Mother Earth.

**What is your greatest struggle in this pandemic and how are you overcoming it?**

One of my biggest struggle in this pandemic is that I lost not just one but two jobs in a row. But it never stopped me from pursuing another job for I am the bread winner in the family. Anxiety issues took a toll on me. I was scared and I felt helpless. But, I prayed to the Almighty and He never failed to amaze me with His love and guidance. He truly won't abandon you no matter what happens, for He is our Father, and we are His children. I took a few webinars and courses online, and applied to some available online freelance job. I also applied as an Online English Tutor to Japanese Students and it really helped me especially sustaining the needs of my family. The most important thing that we need to do is to trust Him and never give up.
