If you were an animal, what would you be and why?

Animals are considered one of the important living beings in this world. They provide humans food, acquaintance, safety and sometimes medicine. If I were an animal I would choose to be a lion. A lion symbolizes strength, dignity and leadership. Strength for I am a breadwinner in the family and it is really important to be strong for them and continue to provide their needs even how hard life is. Dignity for it is important to respect oneself and be a model of good manners to others. Lastly, leadership because being the one who leads for a change may help the community unite and to progress as one. We must know how to stand firm even we encounter a lot of problems and like lions they don't give up as long as they are doing their best to lead and protect.

Are you a beach or mountain person? Explain your choice.

Nature is a gift that we really need to treasure and protect and I consider myself as an advocate to maintain the cleanliness of the surroundings. I am the kind of person who loves to travel with family and friends and most of the time we go to the beach to celebrate something or for relaxation only. I consider myself as a beach person because of the following reasons; I love marine animals and my dream is to experience diving to see a lot of marine creatures. I also love white sands for they are so relaxing to see and touch. Lastly, I love the beach waves they make me calm and it relieves my stress. We must protect our environment especially the beaches for they are one of the wonders of the world.

I am unable to open the Excel spreadsheet that you sent me yesterday (designed in Office 2007). I am currently using Office 2003. Can you please let me know how I can open the spreadsheet? - Jane

Hi Jane,

Good day!

If the computer you are using has Excel 2003 installed you can just download and install the Microsoft Office Compatibility Pack which automatically converts the excel 2007 file and let you open, edit and save workbooks using Excel 2003.

If you have further questions feel free to respond to this email. Our support team will be delighted to answer your questions.

I've been trying to log in to my account for hours now. It says "Username or Password is incorrect." I am 100% certain that I am entering the correct info. Do you know why this is happening? - Jenny

Hi Jenny,

Good day!

In order to log in into your account please click reset password and enter a stronger password for it to work. The "The username or password is incorrect" at the login screen occurs due to the enabled "Use my sign in info to automatically finish setting up my device after an update or restart".

If you have further questions feel free to respond to this email. Our support team will be delighted to answer your questions.

Regards,
