ART NOIR

As flexible as my style is, Noir is a constant in my art. It's second nature to me to break down forms into stylized shapes. Hence, my love for solid shadows and highlights.

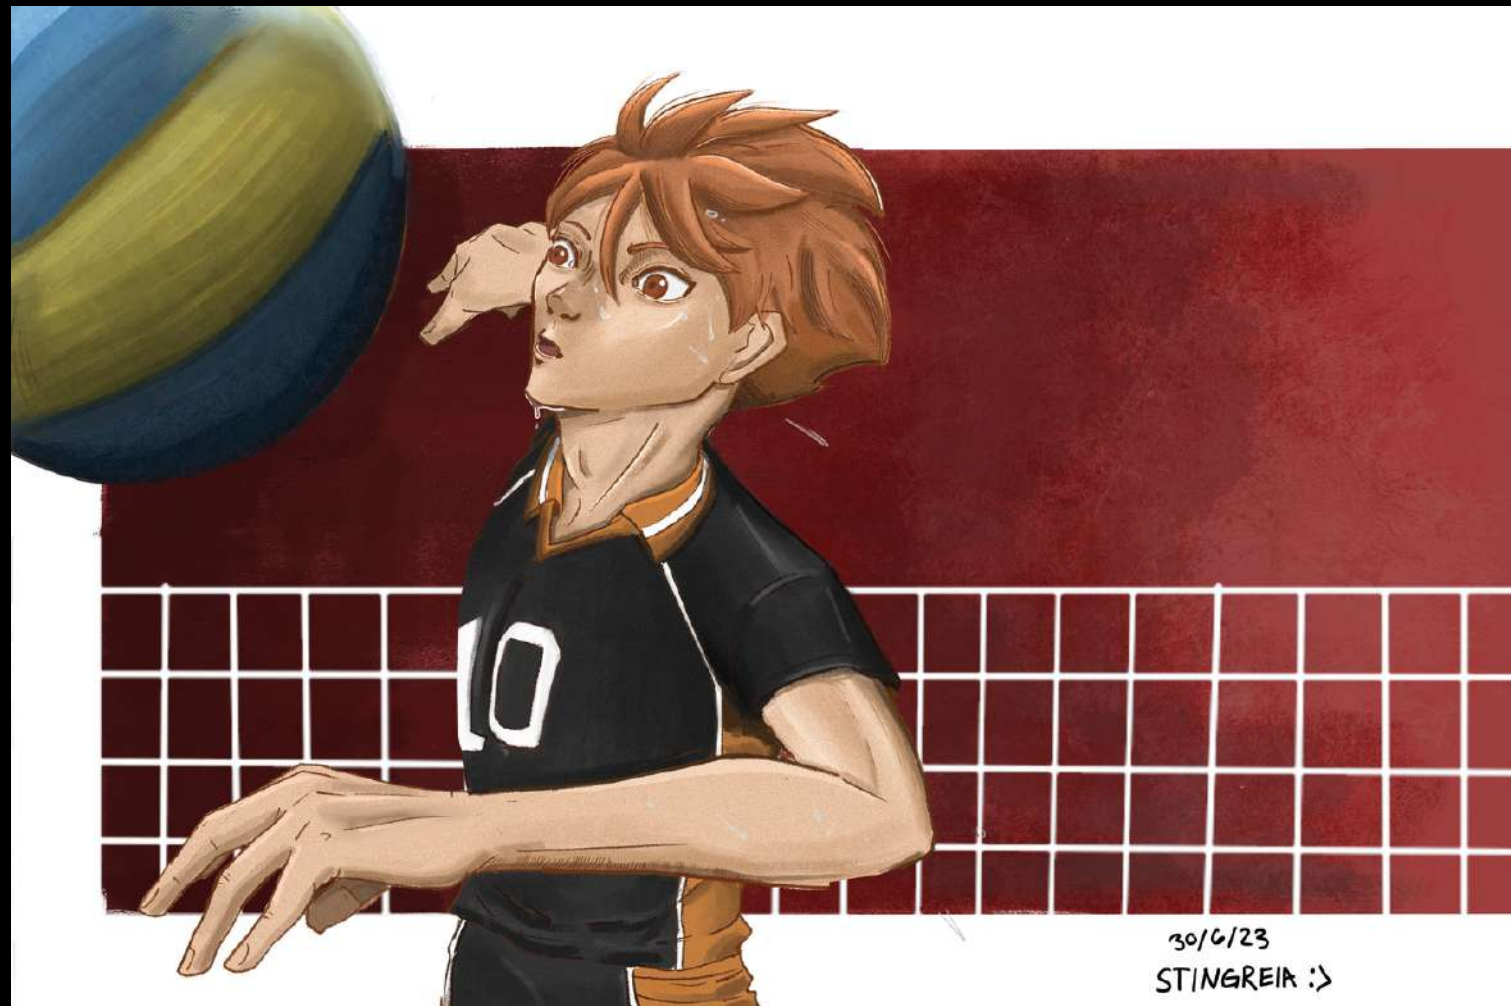

OTHER PROJECTS

DIGITAL PAINTING

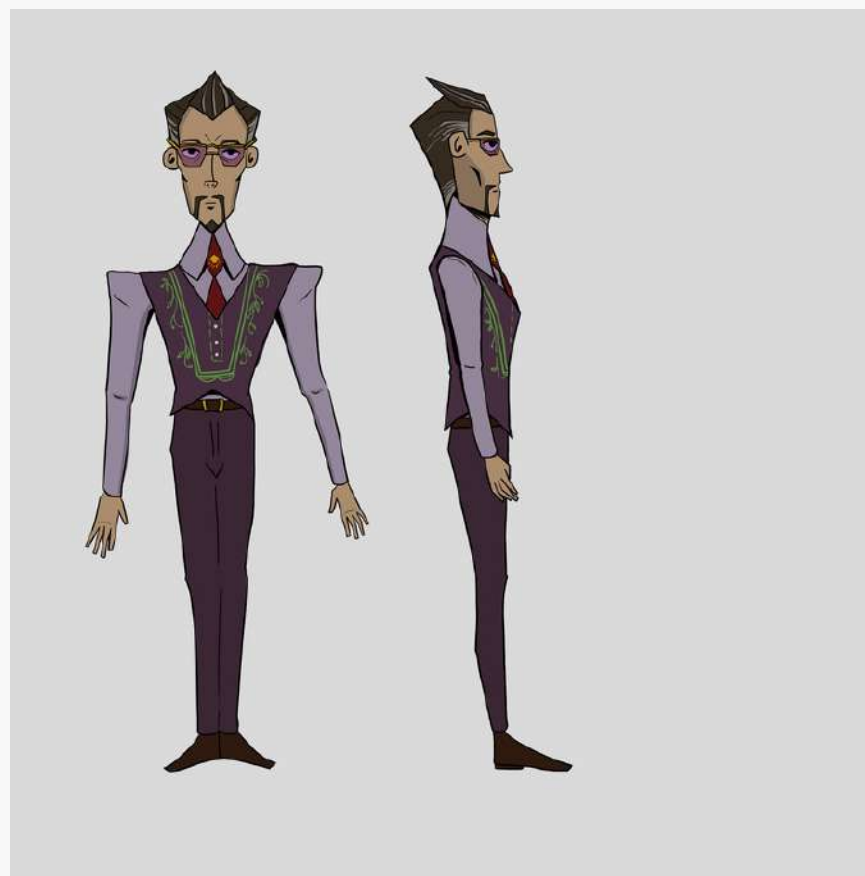

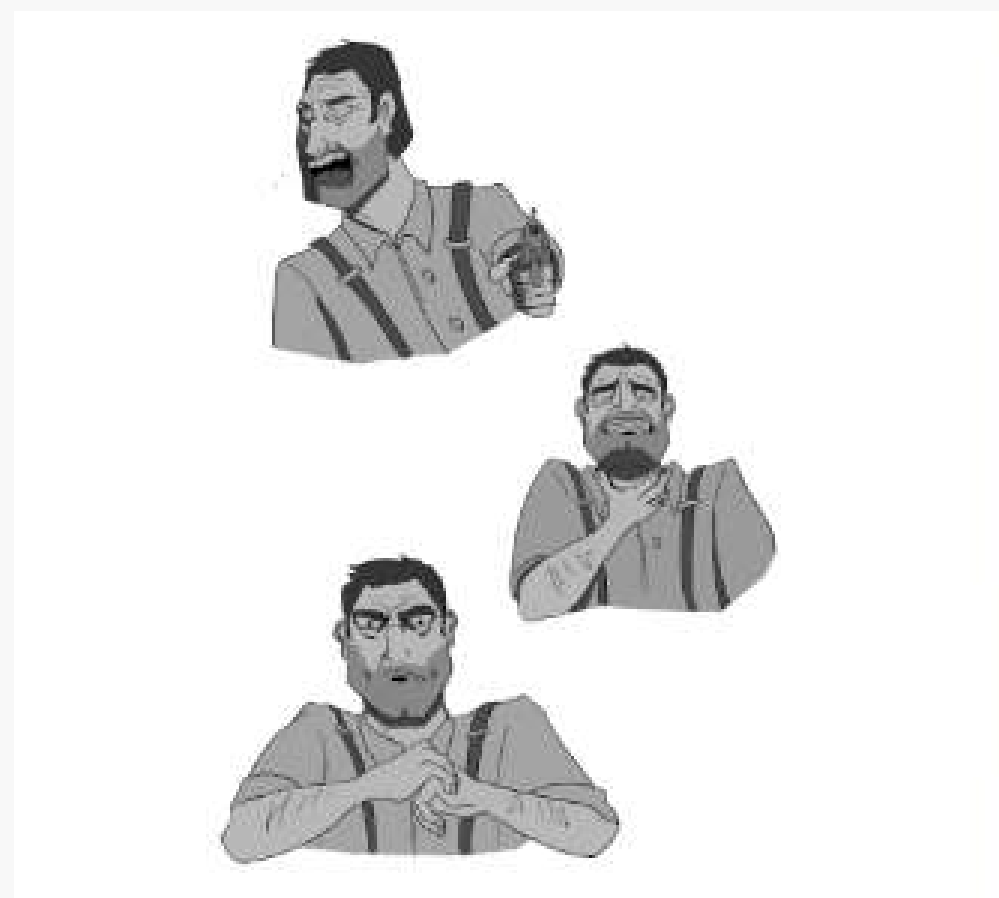

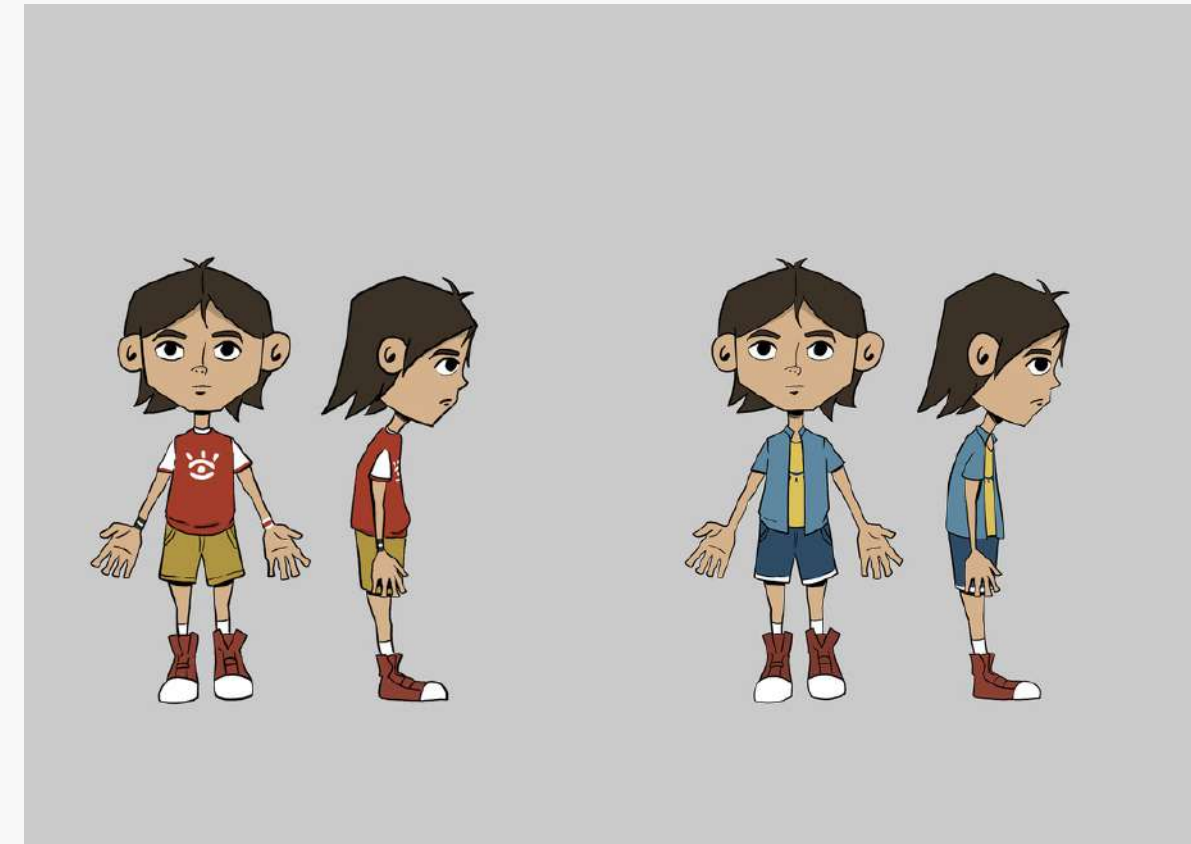

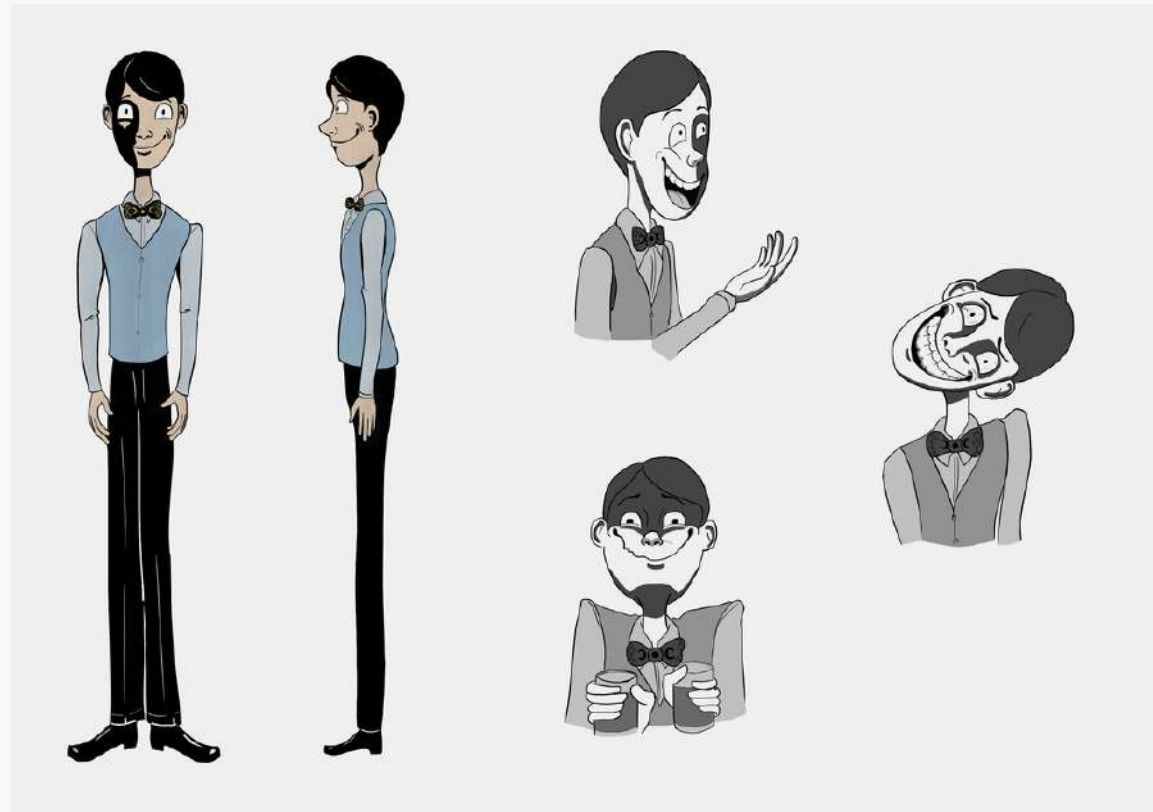

I also delve deep into digital painting, albeit I'm still experimenting with different techniques and styles but I take heavy inspiration from Marco Bucci's painterly style and a bit of J.C Leyendecker's solid shapes.

LAYOUTING PROJECTS

Most of my works are illustrations but I have done graphic design works from school plates and layouting commissions.
